

Public / default
two lectures

```

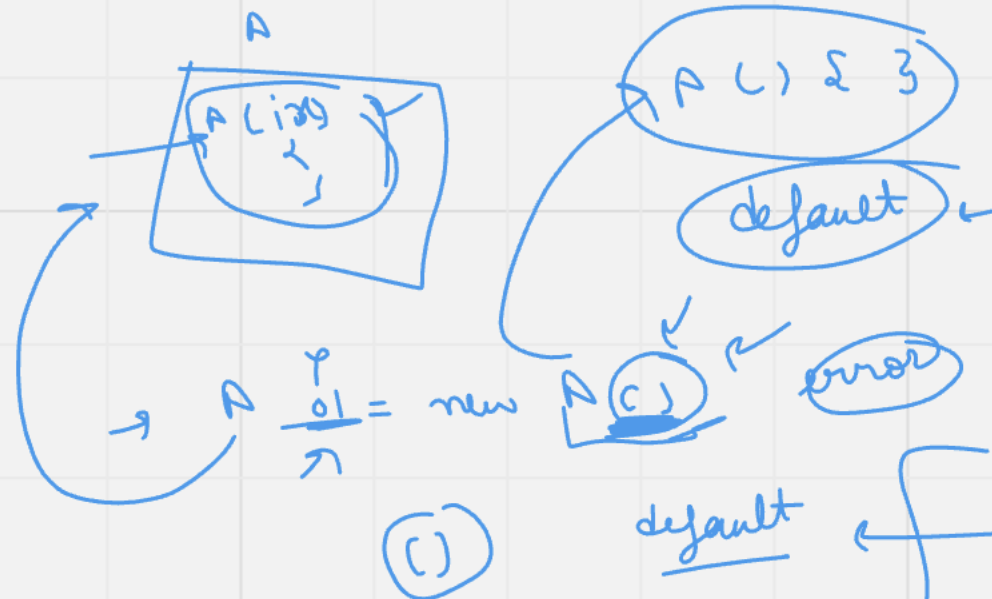

class A {
    A(int z){
        System.out.println("A");
    }
}

class B extends A {
    B(int y){
        System.out.println("B");
    }
}

class C extends B {
    C(int x){
        System.out.println("C");
    }
}
  
```
